

Environmental, Occupational Health and Safety Policy

We, AMCL MACHINERY LTD are engaged in the business of Design, Manufacturing, supply & installation of Cement Plant equipment, Tri Lobe Blowers and Rubber & Tyre Machinery.

We believe that Health and Safety are essential to build a sustainable Business and therefore, we foster a culture of continuous improvement in Environmental, Occupational Health and Safety Parameters across our organisation and committed to prevent the Pollution and Occupational Health hazards.

We shall ensure the above by continually striving for:

- Setting and reviewing Environmental Occupational Health and Safety objectives throughout the organisation and to comply with relevant legal and other requirements,
- Ensuring Periodic review of the effective implementation and continuous improvement of the Environmental, Occupational Health and Safety Systems,
- Ensuring effective arrangement of communication to all stake holders,
- Educating and motivating all employees to contribute towards effective implementation of Environmental, Occupational Health and Safety Systems.
