Japan: UBE Machinery Corporation has signed a license agreement for the design, manufacture and commissioning of vertical roller mills for cement plants and related applications on exclusive basis with India's AMCL Machinery for markets in India, Nepal, Bangladesh and Bhutan. The deal was signed in late May 2019. This license agreement has been signed to explore 'mutual cooperation and opportunities' between UBE Machinery Corporation and AMCL Machinery.

AMCL Machinery is part of Hindusthan National Glass & Industries. It manufactures vertical roller pre-grinding mills for cement plants in India and the Middle East. It also produces rubber and tyre building machines for the local tyre industry.
